

Sharp Top Trees

Specializing in the growing, planting and promoting of American elms

*'Princeton' American elm – Promoting Plantings for the Community with
The Return of the American elm*

Introduction of the New Buy one, get one 'Princeton' American elm Donated!

Sharp Top Trees is introducing a new program where by when a client purchases a 'Princeton' American elm from your location; you in turn donate a duplicate tree to your local City, Parks, School System or Street department in your or your client's name.

This program is based on the need to help those agencies who have lost trees in recent storm damage, decreased budgets due to the economy or general loss of trees in a community. The program will bridge a gap by promoting your organization's name back into the community as an active partner with your choice agency to donate the trees where there is a real need. Many communities have lost trees due to Storms, EAB, DED and the list goes on.

How it works:

Example - You order 25 – 10gal 'Princeton' American elms and we send you 50 - 10gal trees. Once your trees arrive, you coordinate with your choice of agency (verified by STT) for the trees to be donated in your or your client's names. Trees will be shipped all at once to your location. It is your responsibility to deliver or provide a place of pick up of the trees to the agency. Shipping must be paid with the initial order.

Time Frame:

Orders must be shipped prior to December 1, 2011, to qualify for offer.

We will match this until 1000 trees are donated total in the program nationally.

There is GREAT opportunity here to promote your company within your community, help your community with tree donations and expand the Return of the American elm at the same time. Please call or email me with questions. jared@sharptoptree.com, toll free 866-387-1945.

Tree Cost:

10gal	\$35.00
15gal	\$55.00
30gal	\$85.00

Min. order on trees, 10 before we match the order
